BLOCK³

ABBREVIATION REFERENCE: AIR – American Indian Reservation; Trust Land – Off-Reservation Trust Land; TJSA – Tribal Jurisdiction Statistical Area; TDSA – Tribal Designated Statistical Area; ANVSA – Alaska Native Village Statistical Area; ANRC – Alaska Native Regional Corporation; CCD – Census Civil Division; CDP – Census Designated Place; BNA – Block Numbering Area

FEATURES

Highway	Pipe/Power Line	Stream/Shareline
Secondary Road	Ridge/Physical Feature	Intermittent Stream
Lease Trail/Waterway/Canal	Property/Fence Line	River
Railroad	Navigable Boundary	Lake
		Glacier
	Inset	Out Area

Where international, state, and/or county boundaries coincide, the map shows the boundary symbol only for the highest boundary of these boundaries.

1 A "–" following a place name indicates that the place is also a false MCD; the false MCD name is not shown.

2 In 1990, a census of vessels population of ships at sea was allocated to census tracts with a "99" prefix. An anchor symbol associated on the 1990 maps indicated a census of vessels tract. These maps show a very small MCD associated as a census tract with the census tract number shown near the area.

3 A "–" following a block number indicates that the block number is repeated elsewhere in the map.

The diagram illustrates various types of boundaries and features in a landscape, categorized into three main sections: Highway, Secondary Road, and Jeo Tra/Workway/Ferry.

- Highway:**
 - Pipe/Power Line:** Represented by a solid line with small circles (pipes) or squares (power lines) along it.
 - Stream/Shoreline:** Represented by a wavy line.
- Secondary Road:**
 - Ridge/Physical Feature:** Represented by a dashed line.
 - Intermittent Stream:** Represented by a dashed wavy line.
- Jeo Tra/Workway/Ferry:**
 - Property/Tenure Line:** Represented by a solid line with small circles.
 - Nonvisible Boundary:** Represented by a dotted line.

Below these categories, there are three distinct shapes representing different types of boundaries or features:

- Meander:** A blue, irregular shape with a dashed line inside, labeled "Meander".
- Inset:** A grey, irregular shape with a dashed line inside, labeled "Inset".
- Out Area:** A grey, irregular shape with a dashed line inside, labeled "Out Area".

Where international, state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

- ¹ A "*" following a place name indicates that the place is also a false MCD; the false MCD name is not shown.
- ² In 1990, the crews-of-vessels population of ships at sea was allocated to census tracts with a "99" suffix. An anchor symbol appeared on the 1990 maps locating a crews-of-vessel tract. These maps show a very small area symbolized as a census tract with the census tract number shown near the area.
- ³ A "*" following a block number indicates that the block number is repeated elsewhere in the block.
